

Homemade Gift Ideas

Fidget board
Screw or glue a selection of functional items onto a wooden board. We (my dad) even included Oscar's favourite, a doorstop!

Nap time activity with Olivia was to make her brother a sensory board

Sensory Board
Involve siblings in making this board. Glue a variety of sensory items onto a poster board. We used foam, dried pasta, ribbon, rice, burlap, & pinecones.

She was so proud to show her brother the sensory board we made for him. Best big sister!!

Song Cards
Print pictures that represent your child's favourite songs & let them choose what they want to sing or hear. Involve siblings in this game!

Encourage Early Literacy!

← **Squishy books**

Sensory Alphabet →
Create tactile letters. Use beads, foam, faux fur, sand paper to create these letters. Make numbers too!

Sensory Alphabet
Thank you Elaine for the great idea!
