

The Care Your Child Needs

Our multi-disciplinary approach to rehabilitation means you can access physiotherapy, occupational therapy, speech therapy, kinesiology, and mental health services all under one roof.

About Oscar's Place

As parents of a special little boy, Oscar's Place owners, Lana and Oscar Roman, learned first hand that there is no privately funded rehabilitation centre for children in Simcoe County. Lana's background as a physiotherapist combined with her passion for paediatric rehabilitation fueled the creation of Oscar's Place.

“

They are super wonderful!!! I can't believe the changes in my son! Highly recommend Oscar's Place! S.M.
